

K9 Battery LED Worklight

- ◆ High efficiency 30 LED ultra bright power LED head. Fully focusable 3-stage optics, full flood to full spot beam.
- ◆ Zero maintenance, 50,000 hour LED array

- ◆ Full tension clamping handle prevents any movement of head release clamp to allow 360° movement.

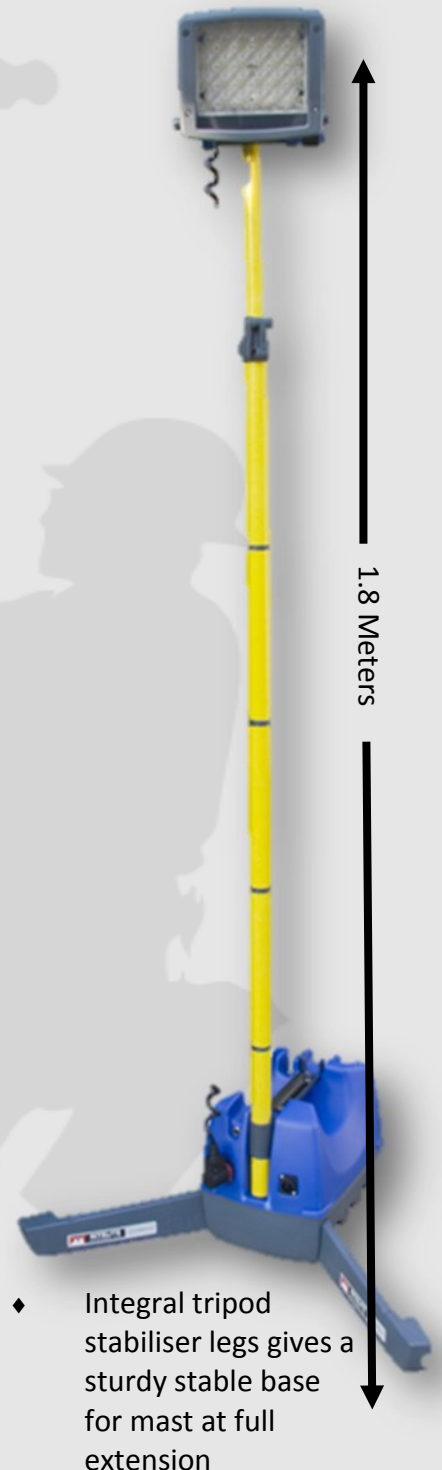

- ◆ Variable section integrally stowed 6ft mast
- ◆ Quick Loc connection allows near instant setup

- ◆ Waterproof membrane panel for head control
 - Battery Status
 - Brightness
 - Mode Selection
 - On/Off

- ◆ Ruggedised internal steel chassis gives massive strength and rigidity
- ◆ Impact absorbing outer casing tested in all temperatures and environments
- ◆ Comfort carry handle connects straight to internal chassis to distribute load

- ◆ Integral tripod stabiliser legs gives a sturdy stable base for mast at full extension

K9 Battery LED Worklight

Daylight bright 6500K light source. Concentrated into power beam or filtered by holographic lens to flatten light as required. Infinitely variable in between.

Construction

K9 30 LED uses impact absorbing long life polymers for outer body chassis in conjunction with a steel inner support chassis for full containment and protection of the unit.

Thermal management system to maximise performance in all environments

Duration

8 hours at 100% power
16 hours at 50% power
33 hours at 25% power
240+ hours at standby/sign illumination mode

Comfort grip for carrying connects to battery chassis for own load distribution

Recharge

4 hours from full discharge

Chargers

Single standard charger—8 hours
Boost charger—4 hours
5 bank charger—4 hours

Specification

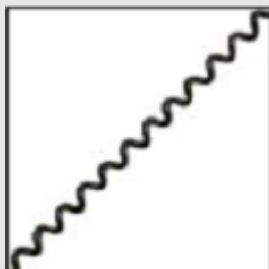

Weight—11.8kgs

Dimensions (Stowed):

Length—390mm

Width—195mm

Height—255mm

Heavy duty full retracting spiral extension cable
