

Battery Hydraulic Installation Tool

WEJTAP Connector

We are pleased to announce the introduction of our new line of battery actuated WEJTAP connector installation tool. These self contained battery powered WEJTAP hydraulic tools use a combined proven platform of WEJTAP tool heads and 18volt Ni-MH battery hydraulic tools to offer a reliable WEJTAP Tool that does not require explosive booster cartridges!

This alleviates the need for special permits or licenses for using explosive cartridges and pays for itself by lowering the cost of each installation by removing the need for the explosive cartridge used in the past.

THE TOOLS ARE ERGONOMICALLY DESIGNED WITH HEADS THAT ROTATE 180 DEGREES AND BALANCED FOR EASE OF HANDLING.
THE HEAD FRAME AND BASE CAP ARE MADE OF STAINLESS STEEL TO ELIMINATE THE POSSIBILITY OF CORROSION.

100 INSTALLATIONS PER BATTERY CHARGE.
12 VOLT DC BATTERY CHARGER WITH CIG PLUG AVAILABLE.
WEIGHT: 5.4kgs
BATTERY RECHARGE: 45 MINUTES.

WE ALSO SUPPLY THE WEJTAP CONNECTORS.
