

Skipper Versatile Barrier

Skipper really is the total safety management solution. With an ever expanding range of integrated solutions, our aim is to be recognised as the industry leader in safety management. Its range of applications make it perfect for so many sectors, including traffic management, construction and facilities management

A traffic cone with a twist

The Skipper road cone is a revolutionary two-piece cone that outperforms its competitors in all areas. The patent protected design features an incorporated helix, which deflects wind away and adds to its stability. The base is designed to facilitate an optional **weight orange**, proving even more ballast and reducing the need to double stack. Its innovative glass bead sleeve has greater reflectivity than prismatic alternatives and is robust and durable, like the whole Skipper range. /this makes it perfect for all applications, from traffic to industrial and commercial.

A Fantastic alternative to a cone

The Skipper Post is the amazing system for the successful Skipper product line, its great versatility allows it to be used on both hard and soft ground, indoors and outdoors. The unique, interchangeable base also the post to be sunk into the ground with a **spike** or attached to its sturdy base for use on hard surfaces. Simply pour water or sand into the base for strength and stability.

The total safety management solution

Skipper is the unique to cordon off any area, creating safer environments with high visibility retractable 9m tape. Skipper simply clicks on top of most traffic cones or its own unique Post & Base System.

Skipper saves you time, storage space and money, paying for itself in months over throw away barrier tape
