

Modiewark Voltage Tester

PART NUMBER: S9

The Modiewark is a non-contact and contact voltage tester, which detects the presence of an alternating electric or electromagnetic field as both a proximity and touch device. Its unique switching action allows for the identification of alternating currents at a distance between 200 mm and 300 mm from a voltage source, from 110 volts AC to 750,000 volts AC, given the correct Modiewark switch setting.

The S9 Model has the following Switch Settings:- OFF, 240v, 2kV, 11kV, 22kV, 33kV, 66kV, 132kV, 330kV
