SECOND EDITION

Our company philosophy:

# Our Vision is Safety

Welcome to the latest **VISIONSafe** catalogue. In it you will find a comprehensive guide to the **VISIONSafe** range of products and their specifications.

The **VISIONSafe** team is committed to the provision of nothing less than the best in our personal protective equipment. Since our establishment in 1998, we have been dedicated to sourcing the latest in safety innovations, keeping **VISIONSafe** at the forefront of safety supply. Uniqueness of product continues to be a key feature of our range. Our buyers seek out the best of products worldwide, including products from the US, UK, Taiwan and South Africa in order to provide the very latest in technologies. Our range now includes a specialist brand of sun safe clothing, an innovative series of first aid kits, along with many other exciting additions to our existing lines.

With many years of industrial experience, our team take enormous pride in their in-depth product knowledge and exemplary customer service. We endeavour to give our best at all times. Our policy of continuous improvement that we apply to our products extends to our people as well. A nationwide network of specialised distributors supports end-users and we welcome visits to our user-friendly website at www.visionsafe.com.au

We appreciate your support to date and look forward to continuing our relationship into the future.

# SUN PROTECTION

UVeto Australia is a specialist brand in sun protective clothing, including hats, gloves, shirts and surfwear. The main focus of UVeto Australia is the development and supply of innovative products to protect the wearer from dangerous UVR (Ultra Violet Radiation) for both work and leisure.

All of our 'sun safe' products are made from quality fabrics which are tested by ARPANSA (Australian Radiation Protection and Nuclear Safety Agency) to provide a UPF (Ultra Violet Protection Factor) rating. So whether you work outside, like to spend your leisure time in the open air, or want to let your children enjoy playing outside in the sun, you can trust UVeto Australia products to help minimize the risk.

# DERMA GUARD

**VISIONSafe** have yet again expanded their range, this time venturing into industrial skin protectants. Derma Guard supersedes traditional barrier creams and is a cost effective, efficient method of providing skin protection for your workforce. It is much more than a pre-work or after-work cream and should not be thought of as just a barrier cream, but a modern day solution to solving skin hygiene problems. If you are seeking to progress forward to a modern and cost effective preventative and protective skin care programme then using Derma Guard is a must.

## WHAT DOES IT DO?

- Protects the skin against paints, oils, greases, petrol, diesel, strong odours, carbon, fiberglass, resins, glues (including super glue), and most solvents
- Provides temporary emergency protection against many acids and bases
- Increases comfort of gloves by reducing excess sweating
- Helps make latex and vinyl gloves more comfortable by placing an invisible barrier between the latex and the skin reducing glove irritation

- Antibacterial and provides a proven biological fluid barrier
- Works under the harshest conditions to provide skin protection against a huge range of irritants
- Assist with skin conditions such as dermatitis, eczema and psoriasis
- Moisturises, nurtures and protects dry, cracked or damaged skin
- Prevents skin splits and cracks from reappearing
- Helps the skins natural defences

## HOW DOES IT WORK?

- Locks onto your skin to form an invisible, non-greasy, microscopic mesh over your skin providing a strong barrier to anything trying to attack your skin

- Does not affect the skins ability to breath and perspire
- Provides top quality skin moisturisers to help the skins natural defenses repair damages, cracked or split skin

## WHAT MAKES IT UNIQUE?

- One application lasts 4 hours despite repeated washing
- Can be applied to any area of your skin
- Sinks right into the skin rather than sitting on the skin
- Contains Silicon Triad® process

- Light, non-greasy cream that sinks into the skin within 3 minutes of application
- Clinically tested to reduce wash up times by up to 60%

## WHAT OTHER FEATURES DOES IT HAVE?

- Non toxic
- No added fragrance
- Contains high-grade pharmaceutical moisturisers to prevent the skin drying out

- Contains Aloe Vera, Vitamin E, Lanolin and Palm Kernel Oil to nourish skin

# CYLINDER RESTRAINTS

BOTTLECHOCK is a unique storage solution for cylinders, drums, piping and other cylindrical objects which has been tried and tested across Australia in harsh outback conditions. It is designed for security in fixed positions, or while in transport, creating a safer working environment.

## BOTTLECHOCK

- Purpose designed to keep cylinders secure
- Suits gas cylinders, oxygen tanks, fire extinguishers, oil drums etc
- Grips around and keeps in full contact with the cylinder
- Restricts both horizontal and vertical movement
- In multiple fittings, BOTTLECHOCK secures each cylinder individually
- Available in Galvanised or Stainless Steel
- Quick to install using bolts
- Quick cylinder changeover with one pull buckle and strap
- Flexible design makes it easy to "snap" cylinders into place

- Cylinders don't have to be lifted, preventing injury
- Quick release pins free up space when cylinder is not in use, and allow use in another location
- Kits include both top and bottom fittings
- Size range:
  Small (100-145mm), Medium (160-230mm), Large (245-375mm)
- Special kits BGOXYACET and BSTGOXYACET hold one large Acetylene Propane and one D, E or G Oxygen on a common bracket
- Available with Red or Yellow chock

Ask us about our new Component System which allows the components of the BOTTLECHOCK to be purchased individually.

| BBRLabML | 240-250mm (eg. G Aluminium) |
| BBRLabL | 245-375mm (eg. LPG) |

## EASY ROLL TROLLEY

- Four wheel stability means wheels carry the load not the operator
- Rear wheel brakes for additional control
- No lifting required to load the cylinder
- Trolley stands vertically to allow easy loading
- BOTTLECHOCK hinges out of the way to allow other goods to be carried
- Cylinders from 160-375mm diameter can be carried

| Code | Diameter Range |

## FOXFIRE

Foxfire is a heavy duty, magnetic backed portable signal light with 26 super-bright LEDs. Each LED has a specially designed magnifier to increase light intensity. The unique arrangement of the LEDs in the Foxfire allows light to be projected from the sides in addition to the front of the light, making this signal light visible from most directions. Foxfire is ideal as an emergency warning light in breakdowns, to delineate danger zones and as an addition to traffic cones.

- 26 Super-bright LEDs
- Magnetic back/pull out stand
- Magnifier on each LED
- Front and side illumination

- Requires 4 AA batteries
- Available in single colours or combinations
- Dimensions: H50mm x W100mm x L160mm

### F262

Operates in either static (constant on) or flash mode

### F263

Operates in either static (constant on), wig-wag (side-to-side) or flash mode
