ArcSafe® X50 Switching Jacket & Trousers Kit with Lift Front Hood

Part Number

EASKJTHLX50-SIZE (S-3XL)

The Elliotts ArcSafe® X50 Switching Jacket & Trousers Kit with Lift Front Hood offers full-body arc flash protection with added convenience and comfort. This kit includes a two-piece jacket and trousers for greater mobility, paired with a lift-front hood that allows improved airflow and quick access when needed. Ideal for professionals requiring both flexibility and high-level protection in electrical switching tasks.

This kit includes:

- ArcSafe® X50 Lift Front Hood
 - ArcSafe® X50 Jacket
- ArcSafe® X50 Bib & Brace Trousers
 - ArcSafe® X50 Gloves

IMPORTANT

NFPA 70E Compliance requires wearing of the whole system (3-piece) as ONE UNIT. 3 Pieces including hood, coat and leggings or hood, jacket and bib & brace trousers. Once a garment has been exposed to an arc flash, it must be removed from service.
