

Modiewark Kit 4

Part Number: MODIEKIT-S9/LIVE

KIT INCLUDES:

- ◆ 1x Modiewark S9 AC non contact voltage tester
- ◆ 1x Modielive EMF Generator
- ◆ 1x ABS foam filled case

Modiewark S9 Features

The Modiewark is a non-contact and contact voltage tester, which detects the presence of an alternating electric or electromagnetic field as both a proximity and touch device. Its unique switching action allows for the identification of alternating currents at a distance between 200 mm and 300 mm from a voltage source, from 110 volts AC to 750,000 volts AC, given the correct Modiewark switch setting.

The S9 Model has the following Switch Settings:- OFF, 240v, 2kV, 11kV, 22kV, 33kV, 66kV, 132kV, 330kV

Modielive Features

The ModieLive EMF Generator is designed to be used in conjunction with the Modiewark non-contact voltage detector. The Unit produces an EMF (electro magnetic field) which can be detected by the Modiewark to prove the Modiewark is working correctly.

The ModieLive produces enough EMF to allow the Modiewark to be tested at the 66,000 volt setting
