

Semi-Con Removing Pliers

SC-13

The SC-13 Semi-Con Roller Grip has a broad nose with serrated jaws for maximum grip. The tool is designed to provide controlled rolling of the semi-con layer that has been scored. This method of rolling helps reduce tearing of the semi-con as it is being removed.

FEATURES

- ♦ **Broad nose for rolling semi-con**
- ♦ **Serrated jaws for maximum grip**
- ♦ **Rugged plastic covered handles**
